👩 [Apple Developer](#)

📄 [GitHub](#)

👤 [LinkedIn](#)

## PROFILE

iOS Developer with 3 iOS and watchOS apps in [AppStore](#). Passionate about creating user-friendly mobile applications with attention to UI/UX design. Skilled in Swift, SwiftUI, SwiftData, Xcode, and iOS frameworks. Previous experience as frontend developer.

## KEY SKILLS

Swift — SwiftUI — SwiftData — iCloud — Xcode — Git — GitHub — Local data storage — APIs — Firebase — Apple's Human Interface Guidelines — Scrum — Agile — AppStore Product Release — English (C2) — French (B2)

## EXPERIENCE

### Independent iOS and watchOS Developer — 2022–Present

Personally created 3 iOS and watchOS apps from idea and design to programming and AppStore release. My projects:

- [Entrack](#) — iOS app for your media collection tracker. Main technologies: Swift, SwiftUI, SwiftData, iCloud
- [AskAway - Questions](#) — iOS and watchOS app with conversation-starters. Main technologies: Swift, SwiftUI, Local Storage, Language Localization
- [Blink Watch App](#) — watchOS app for eye health care that reminds to blink. Main Technologies: Swift, SwiftUI, WatchKit, Language Localization

### Frontend Developer, Sibintek — 2021

Created website for business forum; worked on a browser app and as a part of that created a dashboard for task tracking and communication and a protected file-exchange system.

Key skills: React, Next.js, Gatsby, Agile, Scrum, Teamwork

## EDUCATION

### MIREA - Russian Technological University — Bachelor of Science (Physical Chemistry), 2020

GPA: 4.7 / 5

Studying physical chemistry involved working with mathematical modeling and data analysis. Active use of logical thinking and problem-solving skills while studying inspired me to dive deeper into the world of programming.
